

Pescadero High School will have its “drive-in” graduation this Thursday at 6:00 pm. It will be held outdoors on the south-facing side of the school and will follow the county’s health guidelines. Parking will be limited to the seniors and their immediate and extended families, the school board, the school staff, and our community partners by invitation. Each invitation = one car. There is no limit to the amount of passengers per car. Please understand it was a difficult decision and was weighed with careful consideration. A post-graduation parade will begin immediately after the ceremony through town.

The parade will be led by the graduates' cars. They will drive into town via Cloverdale then take a left on Pescadero Creek Road. When they arrive at the post office, they will turn right on Stage and drive through town, take a right on North and disperse at the end of North around Harley Farms. Signs of support are encouraged. Families, community, and businesses who plan to cheer from town, please wear masks and follow social distancing measures.

We hope to see you all cheering on our proud graduates!
