STUDENTS IN MEDIA CONSENT FORM

Each year the schools publish information through various media forms, including print (such as school newspapers), electronic (such as school websites), and video production. The District also publishes such information. The purpose of these publications is to provide the community – students, parents, and the general public – with an opportunity to learn about the District’s schools and to showcase their achievements.

The District recognizes that when publishing video or photographic images of students or student work, particular care must be taken to protect students. The District will not publish information relating to your child without your written consent.
